About Us

# Sustainability Through Circularity

## Our Mission

At **B**YOND, we aim to lead the global transition to sustainable energy by pioneering comprehensive high-value solar recycling solutions for a **greener**, **cleaner**, and **circular**, future.

## Our Vision

We envision to become India's largest sustainably sourced raw materials supplier for the renewable industry through eco-effective recycling technology.

## Recycle with Us

and make solar energy  
the cleanest form of  
renewable energy on the  
planet.

67%

Waste Accumulation in  
Rajasthan, Gujarat,  
Karnataka & Tamil Nadu

29%

Solar Waste CAGR till  
2040

132kt

Solar Waste Expected in  
India in 2025

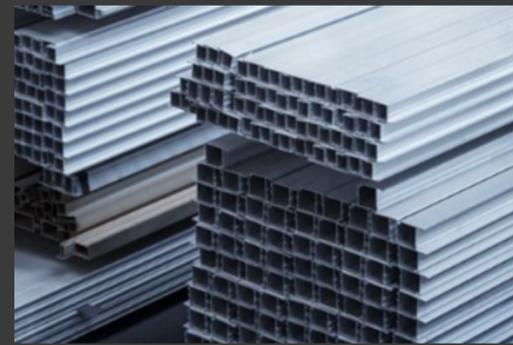

4,827kt

Projected Solar Waste  
by 2040

Our Process

# Waste to Value through Circularity

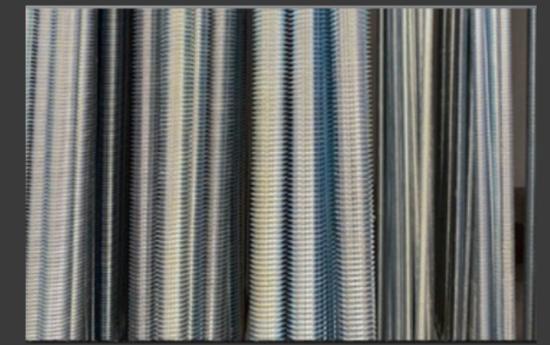

SUSTAINABLY SOURCED RAW MATERIALS

Aluminium

Glass Cullets

Silver

Silicon

Copper

# Beyond's Competitive Differentiators

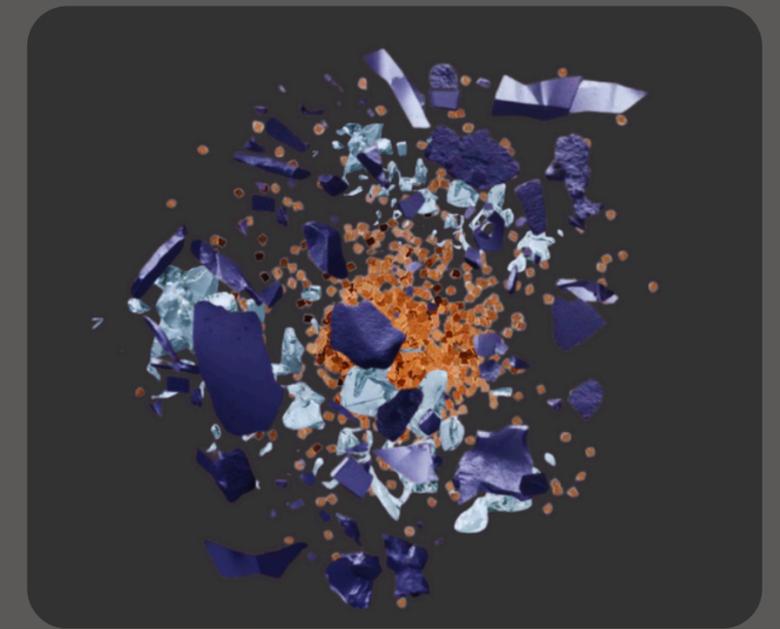

Eco-effective High-Value Recycling Technology

Building a strong Waste Supply-Chain

Developing EPR Management Portal

Working towards Sustainable Value Added Products

# Your Recycling Solution

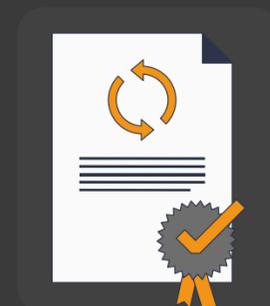

## Testing Infrastructure

We COLLECT, TEST, REUSE  
& RECYCLE

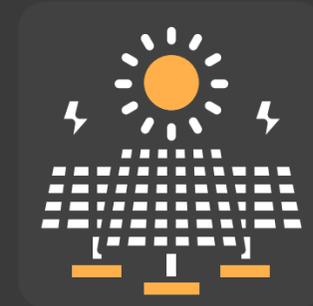

## Reverse Logistics

Closing the loop with  
Smart Waste Procurement  
Strategies

## EPR Certificates

Ensuring Compliance and  
Boosting Sustainability

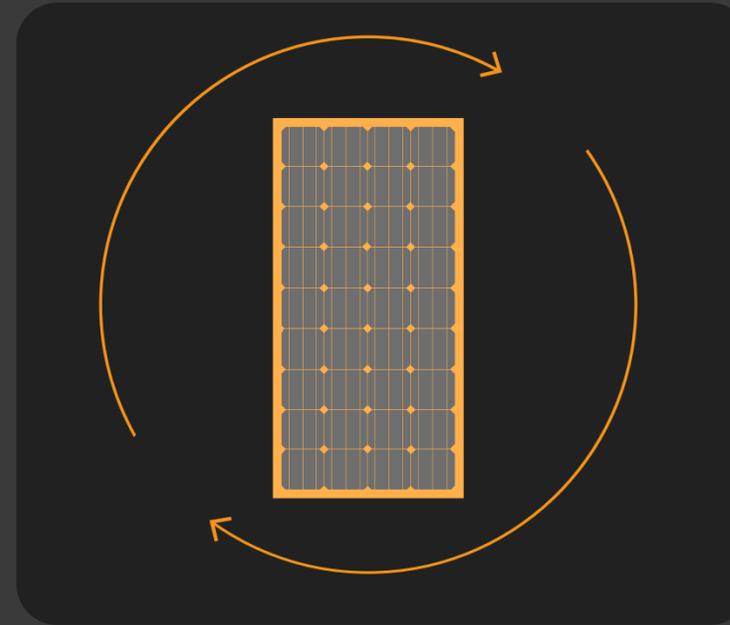

## Decommissioning

Comprehensive Site  
Assessments, Planned &  
Efficient Dismantling of Solar  
Assets

VALUES

# Sustainability means Everything to us

Our Metrics of Success

Emissions  
Prevented  
**CO2 Tons**

Emissions avoided by  
preventing landfill of  
hazardous waste

Recycled Materials  
Reintegrated  
**₹ / Tons**

Value of sustainably sourced  
raw materials reintegrated  
into the supply chain

Energy Savings  
**MWh**

Energy saved in recycling  
compared to virgin mining
